

HOW TO MAKE A MASON JAR AQUARIUM

SUPPLIES NEEDED TO MAKE A MASON JAR AQUARIUM

- mason jars
- blue food coloring
- filtered water
- aquarium plastic figurines or toy fish
- blue and white glitter (optional)
- glycerin (optional, helps water flow more slowly)
- aquarium rocks and plastic plants

HOW TO MAKE A MASON JAR AQUARIUM

1. Add rocks and plants to your mason jar.
2. Fill with water and add some plastic sea creatures.
3. Add some blue food coloring until you are satisfied with the color.
4. Add glitter if available.
5. Add a few drops of glycerin more if you want the water to flow more slowly and look more viscous.
6. Screw lid shut (you can also glue the lid with some hot glue if you'd like).
7. Gently swirl to see your sea creatures swim!

Everyone will enjoy this super fun and easy craft, and it will be great to see where they choose to display the treasure they created themselves.
